OLYMPUS

2 Portability & Reliability

The image shows two side-by-side photographs of photographers on a rocky shore. The left photo shows a person in a blue jacket and hat using a large white telephoto lens mounted on a tripod. The right photo shows a person in an orange shirt using a smaller black telephoto lens held in their hands. A yellow arrow points from the left photo to the right photo.

11.5 lbs
Full frame system

3.75 lbs
OLYMPUS system

Handheld telephoto 600mm equivalent shooting

What is the benefit?

- Can be smaller
